### Project Description

2008 summer project consisting of survey and engineering services for building addition to accommodate a new gym and fine arts classrooms. The work included extension of public access (vehicular and pedestrian) site utilities and enhanced stormwater management including an MDEQ permit for utilization of wetland for stormwater detention.

2009 summer project consisting of construction of a new 90+/- space parking lot to provide supplemental parking for the elementary school as well as the adjacent soccer stadium. Scope of services includes parking lot layout, pavement design, grading drainage underground detention system design, bidding and construction related services.
