Project Description

Taylor Medical Building is a proposed medical facility to be situated on 2.31 acres. The building will be two-story with over 16,000 square feet floor area. A covered patient drop-off area is proposed at the main entrance to the building. Additional barrier-free parking spaces have been added to the facility for the increased need due to the use. Unique features on the site include a 100 year flood plain and wetlands across the back portion of the property.
