Project Description

Boss Engineering performed the survey, engineering and landscape architecture work for the Eagle Business Center industrial / business park in Brighton Township. The Eagle Business Center is a 13-lot industrial park on a 21-acre property off the north side of Grand River Avenue, approximately ½ mile east of US-23. Work performed included the survey, engineering design, landscape design, preparation of site / construction plans and construction stakeout for the business park. Boss Engineering subsequently prepared site plans for facilities on seven (7) of the lots within the Eagle Business Center Park.
