

Bridgewater Sewage Treatment Plant

Bridgewater Township, Washtenaw County MI

Client: **Bridgewater Township**
10990 Clinton Road
Manchester, MI 48185
Ms. Julea Mull, Supervisor
517.456.7728

Project Description

Bridgewater Township constructed a new sewage treatment plant in 2009. They have been experiencing problems with the effluent and have been cited by the MDEQ for permit violations. We were hired to evaluate the existing plant and provide a solution to upgrade the plant to meet discharge limits. The project is currently on-going. The value of the plant is approximately \$800,000.00
