## Project Description

---

The members of the First Presbyterian Church in Fenton had outgrown their existing church. So they teamed up with Boss to develop a plan for the expansion of their building. As part of the first phase, the church is renovating the back of the church to create a new fellowship hall, offices and classrooms. The second phase will include an addition to the sanctuary. Boss' work included storm water analysis, landscape and lighting design, and a parking study to ensure the congregation had enough parking for their expanded facility.
