

Livingston County Airport Hanger

Howell Township, Livingston County, MI

Client: Environmental Engineering Corp.
7081 Dan McGuire Drive
Brighton, MI 48116
Mr. Bob Gaines
248.486.8888

Project Description

The developer wanted to construct a 24,800 s.f airport hanger which would have direct access to the Livingston County Airport. Boss Engineering was hired to develop a layout to meet the developer's needs and F.A.A. requirements. Once approved by the developer, Boss provided construction plans which included layout, grading and drainage, utility design, soil erosion control, landscape and lighting design. As part of the project, Boss prepared the necessary documentation including the F.A.A. Form 7460-1 "Notice of Proposed Construction or Alteration", for submittal to the F.A.A.
